

GIGANTIC PLANT OF PACKING HOUSE NOW BEING CONSTRUCTED

PHOENIX, May 22.—Active and definite preparations for the construction of the Arizona Packing company's plant, the huge new concern recently announced to make Phoenix its headquarters are now under way and engineers are engaged in laying out the site for the plant and the railroad facilities it will require.

The plant will be located on the Tempe road, five miles east of the city. A tract of 50 acres has been purchased for the site. Railroad connections have been arranged by running a half mile spur track from the Arizona Eastern's lines, and ample side track will be available inside the plant. The plant itself is to face on the Tempe road.

The plant will center about a main building of reinforced concrete, four stories in height, with dimensions of 200 by 250 feet. Around it will be grouped other and smaller buildings. The plant will also include large stock yard accommodations. When the plant is completed it will employ 250 to 500 men. The plant will use both steam and electrical power, with a 200 horsepower capacity independent of any other agencies. The total cost of the plant will be \$500,000.

Will Establish Townsite

Coincident with the erection of the big plant, it is announced, the company will provide ample living accommodations for its employees on the site it has purchased. A townsite will be laid out adjacent to the plant, and acre tracts with homes are already being planned for the company's employees.

A remarkable large number of prominent stockmen and business men from all parts of the state have become interested in the new packing industry, realizing that the establishment of such an enterprise will stabilize the industry throughout the state and provide a solid and substantial outlet for all livestock grown in Arizona. Among those already prominently interested are the Tribolet Packing company, the Tovrea Packing company, the Phoenix Wholesale Meat company, Lon Harmon, cattle grower and banker; Charles P. Miller, president of the Cattle Growers' association; C. W. Davis, sheepman; P. K. Lewis of the Central Bank and Central Loan; Jack Barber, member of the Livestock Sanitary board; E. E. Pascoe, realtor and capitalist, and a

OFFICES OF DOUGLAS DOCTORS ARE ROBBED

Harry Milford, whom the Douglas police say has a bad record, is in jail today facing a charge of burglary as the result of the alleged theft of a quantity of drugs and several valuable hypodermic syringes from the offices of Doctors Bim Smith and A. W. Vanneman, Wednesday night. Several dollars worth of postage stamps, all the keys to the various rooms and other articles were also taken. Most of the stolen goods were recovered.

Milford is a well dressed young man and, the police say, has not worked since he arrived in Douglas. He admits having just finished a jail sentence in El Paso. Officers say he is addicted to drugs.

large representation from the Cattle Growers' association.

Has Business Already

Incidentally, the entire business of the Tribolet Packing company and the Phoenix Wholesale Meat company will go to the new Arizona Packing company, representing a total business of some four millions a year.

The packing company is by no means purely a Salt River valley enterprise, but state wide. Its materials will come from all parts of the state, and the entire state will be its market. Its products will include everything handled by any packing plant, making second to none, except perhaps in size, to any in the country. Its products will be marketed under the company's own brand.

The officers of the Arizona Packing company are as follows: President, E. A. Tovrea; vice president, J. T. Hughes; secretary, Fred Tribolet; treasurer, J. C. Hurley. These four, with Lon Harmon, P. E. Tovrea and E. J. Tribolet compose the directorship.

KAISER'S PRODIGAL IS WISHED UPON LUGANO

BERNE, Switzerland, Wednesday, May 21.—Former Prince Frederick Leopold of Prussia has arrived at Lugano, where he will reside permanently. It is recalled that the former emperor several years ago brought a suit against the prince, who is 24 years old, in an effort to have him placed under guardianship because he was squandering money. The attempt failed.

LETTERS OF FORMER ARIZONA SOLON AIRED IN L. A. DIVORCE SUIT

A Los Angeles dispatch under date of May 22 says:

"Although a prolific writer of burning love letters, Assemblyman William J. Graham of Arizona did not believe that his honeyed words should be preserved to posterity because they surely cause trouble."

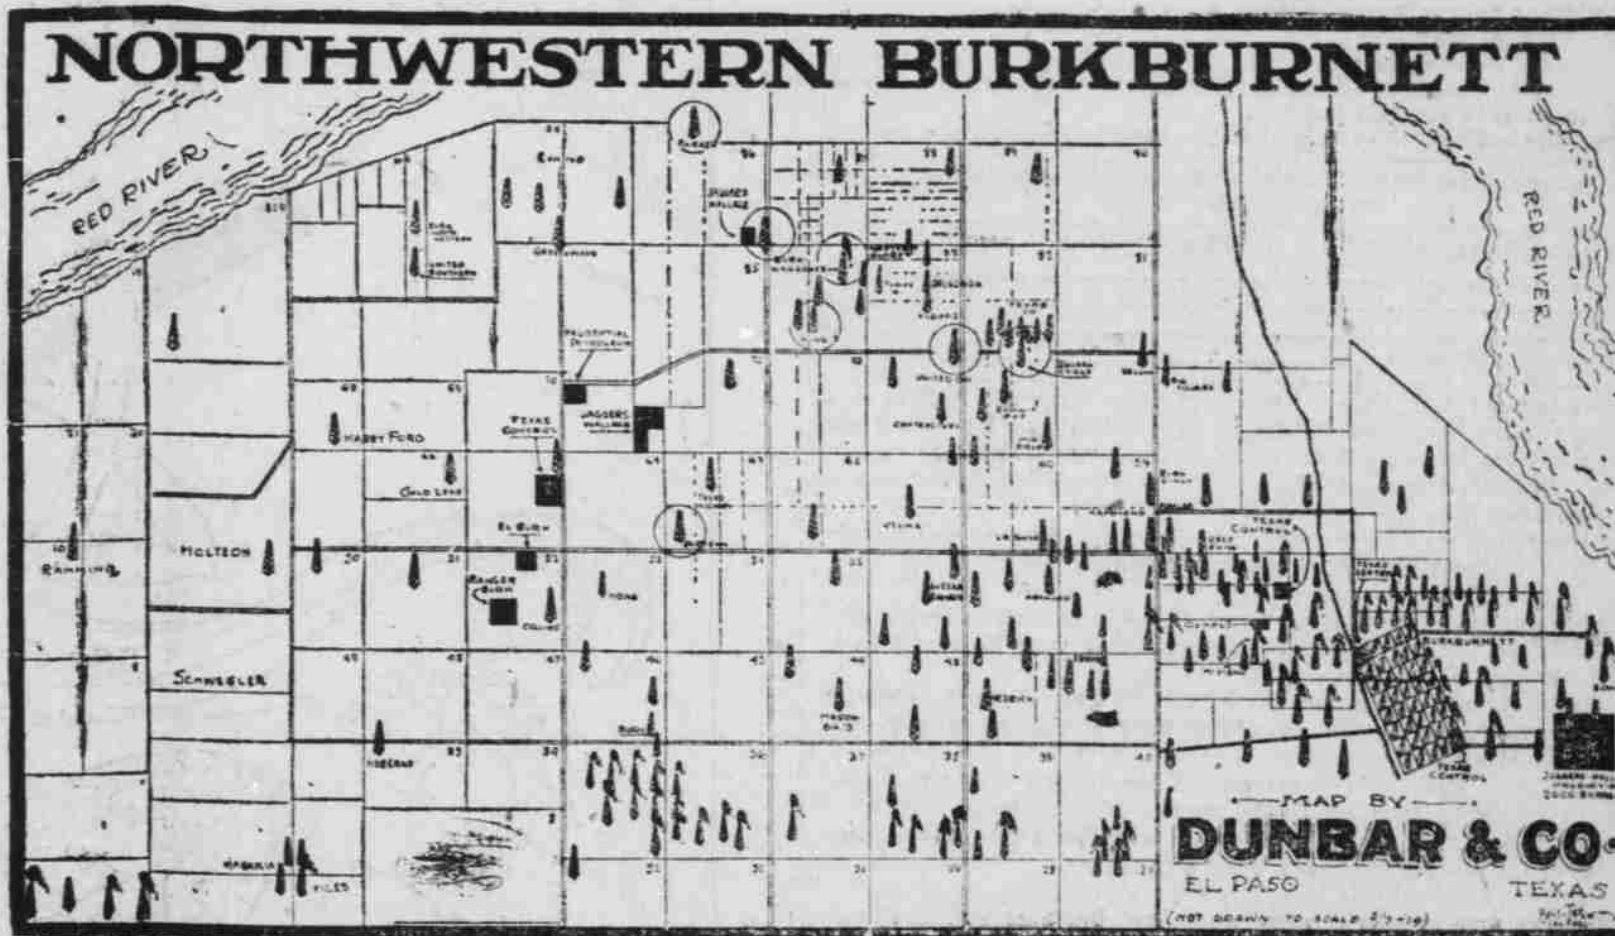

"Therefore, he is alleged to have written to Mrs. Loula Frame, 624 Hyde street, wife of John Frame, he admonished her to be sure and destroy them, but Mrs. Frame could not destroy the burning words and they fell into the hands of her husband."

"Frame, however, did not get the letters until his wife sued for divorce, charging cruelty. He then broke into her private trunk."

One of the letters quoted in the Los Angeles story is as follows:

Mrs. Loula Frame: I have not done a single thing that I did not tell you of. I have been too close to you to feel me so much and you make a damn poor stall in your letter. I was and am heartsick at your actions for I felt we would be pals all of our lives. I expected you to be just square with Billy. I am awful sick and tired of this legislature and want no more of it. Loula, I feel miserable, but if I am wrong I would be happy enough to be repaid for the suffering. Hon, I surely worshipped you, and no matter what happens you can always look back and say "Billy honestly loved me." I feel too bitter to write much. I will probably be home in a couple of days. If you lack incentive your own pride should make you cherish the respect I hold for you. But as to your sarcasm concerning married women or other women, I will say it is very far fetched bunk and you know it. One lesson I have learned and that is that when a man's love won't hold a girl he is a fool to try to hold her. Well, bye, bye, Hon. I certainly loved my little pal and I guess I do a little yet. Lots of love. BILLY.

Graham, now a resident of Phoenix, at one time held the office of constable at Lowell and subsequently served as a deputy sheriff of Cochise county. He was elected representative to the first Arizona state legislature in 1912. Graham was also well known in baseball circles here, officiating in the capacity of umpire at numerous games.

The Jaggers-Wallace DIVIDEND

THE DIVIDEND NOTICE of the JAGGERS-WALLACE OIL CORPORATION which is being published from Maine to California, created just as much sensation among those familiar with Burkburnett stocks as did the BURK-WAGGONER when she came in a gusher and stockholders who paid \$75 for their stocks were paid \$3,333.33 for their shares. One share of BURK-WAGGONER cost one of our clients \$75 and he received \$3,333.33. There has been no GUSHERS to create a sensation for JAGGERS-WALLACE, but in a quiet way this Company during the past year have been getting production. They have been accumulating valuable property. This Company paid \$330,000.00 in cash for their interest in Block 101 with three producing wells. They have since brought in another well which brings their production in Block 101 up to approximately 2,500 barrels.

We learn from an associate that they paid \$95,000 for the FIVE ACRES in Block 86 and the TWENTY ACRES in Block 71 and this was before the fancy prices were paid in these blocks.

JAGGERS-WALLACE has 102 acres in the RANGER FIELD surrounded by production. They have one well producing approximately 600 barrels a day.

They will have another well in the Ranger Field in production within the next fifteen days and within the next fifteen days will have another well on the sand in Burkburnett.

Their production today is 3,000 barrels daily at least, which means \$6,000 NET IN CASH DAILY OR \$180,000 A MONTH. This production will be increased monthly and as a prominent Arizona man said, within three months they should be producing 7,500 barrels daily.

The Dividend Explained

We have received wires asking for an exact explanation of the Company dividend announcement: It is perfectly plain to us. If you own 100 shares of Jaggers-Wallace now, or if you own 100 shares up to May 30, 1919, you will receive from the Company an additional 100 shares. THAT'S YOUR STOCK DIVIDEND. You will receive also on June 1st a cash dividend of Ten per cent. This cash dividend is an extra additional dividend to the Company's regular 20 per cent cash dividend. After June 1st you will be a stockholder of record for 200 shares and when the next dividend is paid you will receive a cash dividend on the 200 shares.

We are reliably informed that the Company will pay after June 1st dividends monthly and if their production is held up to 3,000 barrels, and in our mind the production will be increased, the dividend will be 10 per cent monthly instead of 30 per cent yearly.

We have announced that your order for stock should be registered with us by Tuesday, May 27th, in order to absolutely assure you of your becoming a stockholder of record. We as BROKERS, want to see you on the books of the Company before June 1st. If you wire us your reservations we will immediately notify the Company, whose head office is at Fort Worth, Texas, that we are reserving so many shares for you, with the idea of your taking advantage of this dividend.
